CAREER OBJECTIVE

Computer Science Engineering graduate with hands-on experience in MERN Stack, Laravel, REST APIs, and database management through internships and academic projects. Passionate about building scalable web applications and seeking an entry-level Software Developer role to contribute, learn, and grow in a collaborative environment.

WORK EXPERIENCE

Tarun Infotech | Laravel Developer Intern | Feb 2025 - Apr 2025

- Developed backend modules using Laravel and MySQL.
- Worked on patient record forms, reporting dashboards and debugging.
- Assisted in testing and deployment of live applications.

Tattva Foundation | Web Developer Intern | Jul 2023 - Jan 2024

- Built backend features using Laravel and PHP.
- Developed REST APIs, CRUD operations and authentication.

TECHNICAL SKILLS

Languages: JavaScript, PHP, Python

Frontend: React.js, HTML5, CSS3, TypeScript

Backend: Node.js, Express.js, Laravel

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman

EDUCATION

B.Tech (Computer Science Engineering)

Dr. A.P.J Abdul Kalam Technical University (2023-2026) | CGPA: 7.13

Diploma (Information Technology)

Government Girls Polytechnic, Lucknow (2020-2023)

PROJECTS

AI Powered Medical Report Analysis and Health Monitoring System (Final Year Major Project)

Tech Stack: React.js | Node.js | Express.js | MongoDB | Google Gemini API | REST API

- Developed a healthcare web application for report analysis and patient monitoring.
- Implemented patient record management and report storage.
- Designed health monitoring and report analysis modules.

TalentBridge - Recruitment Platform

Tech Stack: React.js | Node.js | Express.js | MongoDB | JWT | REST API | Tailwind CSS

- Developed a full-stack recruitment platform for job seekers and employers.
- Implemented JWT-based authentication and role-based access control.
- Built RESTful APIs using Node.js and Express.js for job posting and user management.
- Designed a responsive React.js interface and managed data using MongoDB.
