CAREER OBJECTIVE

Computer Science Engineering graduate with hands-on experience in frontend development, MERN Stack projects, and application testing through internships and academic projects. Passionate about building scalable web applications and seeking an entry-level Software Developer role to contribute, learn, and grow in a collaborative environment.

TECHNICAL SKILLS

- **Languages:** JavaScript
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB
- **Tools:** Git, GitHub, VS Code, Postman
- **Testing:** Manual Testing, Functional Testing

PROJECTS

AI Powered Medical Report Analysis and Health Monitoring System (Final Year Major Project)
Tech Stack: React.js | Node.js | Express.js | MongoDB | Google Gemini API | REST API
GitHub | Live Demo

- Developed a healthcare web application for report analysis and patient monitoring.
- Implemented patient record management and report storage.
- Designed health monitoring and report analysis modules.

TalentBridge - Recruitment Platform
Tech Stack: React.js | Node.js | Express.js | MongoDB | JWT | REST API | Tailwind CSS
GitHub | Live Demo

- Developed a full-stack recruitment platform for job seekers and employers.
- Implemented JWT-based authentication and role-based access control.
- Built RESTful APIs using Node.js and Express.js for job posting and user management.
- Designed a responsive React.js interface and managed data using MongoDB.

WORK EXPERIENCE

Tarun Infotech | Web Developer Intern | Feb 2025 – Apr 2025

- Tested website functionality and user modules, verified application workflows, and reported issues.
- Assisted users with queries related to login, application access, and different processes.
- Identified and resolved user-reported issues related to application functionality.
- Worked with the development team to verify fixes and ensure smooth application performance.

Tattva Foundation | Web Developer Intern | Jul 2023 – Jan 2024

- Developed and customized frontend web pages based on project requirements.
- Modified existing HTML templates and converted them into Laravel Blade templates, updating layouts and UI components as per client requirements.
- Integrated frontend templates into Laravel-based web applications.

EDUCATION

B.Tech (Computer Science Engineering) | 2023 – 2026
Dr. A.P.J. Abdul Kalam Technical University | CGPA: 7.13

Diploma (Information Technology) | 2020 – 2023
Government Girls Polytechnic, Lucknow

CERTIFICATIONS

- MERN Stack Development – PW Skills
